

REST - Get country based on country code

CountryController.java

```
package com.cognizant.springlearn.controller;

import com.cognizant.springlearn.Country;
import com.cognizant.springlearn.service.CountryService;
import org.springframework.beans.factory.annotation.Autowired;
import org.springframework.web.bind.annotation.*;

@RestController
public class CountryController {

    @Autowired
    private CountryService countryService;

    @GetMapping("/countries/{code}")
    public Country getCountry(
        @PathVariable String code) {

        return countryService.getCountry(code);
    }
}
```

CountryService:

```
package com.cognizant.springlearn.service;

import com.cognizant.springlearn.Country;
import org.springframework.context.ApplicationContext;
import org.springframework.context.support.ClassPathXmlApplicationContext;
import org.springframework.stereotype.Service;

import java.util.List;

@Service
public class CountryService {

    public Country getCountry(String code) {

        ApplicationContext context =
            new ClassPathXmlApplicationContext("country.xml");

        @SuppressWarnings("unchecked")
        Country country = context.getBean("country", Country.class);

        if (country.getCode().equalsIgnoreCase(code)) {
```

```

        return country;
    }

    return null;
}
}

```

Country.xml

```

<?xml version="1.0" encoding="UTF-8"?>

<beans xmlns="http://www.springframework.org/schema/beans"
        xmlns:xsi="http://www.w3.org/2001/XMLSchema-instance"
        xsi:schemaLocation="
            http://www.springframework.org/schema/beans
            https://www.springframework.org/schema/beans/spring-beans.xsd">

    <bean id="country"
        class="com.cognizant.springlearn.Country">

        <property name="code" value="IN"/>

        <property name="name" value="India"/>

    </bean>

</beans>

```

Output:

The screenshot shows a REST client interface with a GET request to `http://localhost:8083/countries/in`. The response status is 200 OK, and the body is a JSON object containing the country code and name.
